

## Installation of the Digital Printer

- 1) Fasten digital coder arm to the back of the Tie-Matic using 2 screws.

- 5) Place the ink carriage onto the digital coder arm by lining up the yellow lines.
- 6) Tighten the two knobs to attach the ink cartridge to the arm.

- 4) Attach the printer cable to the bottom of the ink carriage.

- 2) Use 2 screws to fasten the brake arm to the arm of the digital coder.
- 3) Put spool material on the brake and feed through the ink cartridge of the digital coder.
