

# Fork Leveler

Model Number: **FRK-LVL**

**Designed to aid the fork truck driver in determining when the forks are level**

| Model Number   | Description         | Overall Size (W x L x H)         | Net Weight (Pounds) |
|----------------|---------------------|----------------------------------|---------------------|
| <b>FRK-LVL</b> | <b>Fork Leveler</b> | <b>2-5/8" x 9-1/4" x 5-1/16"</b> | <b>1</b>            |

The Fork Leveler is mounted in the eye-line of the operator and gives a clear and precise indication of the mast tilt angle. Even novice operators will be able to accurately align the forks with the load, **FIRST TIME, EVERY TIME!** Save money, save time, and improve safety with the Vestil Fork Leveler.

## Cost Savings:

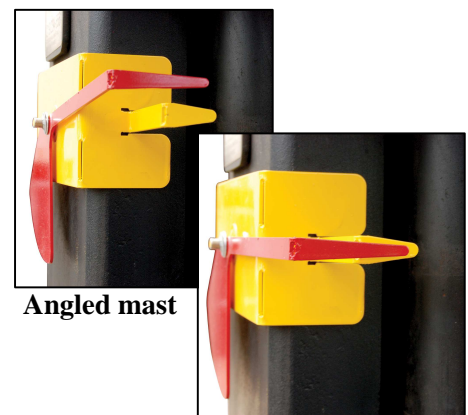

- Less damage to racking systems
- Less wear to forks, controls, and hydraulics
- Fewer damaged pallets and packaging materials
- Reduced re-palletizing
- Fewer instances of declined shipments due to damaged packaging

## Time Savings:

- Greatly reduces pallet handling times
- Improves the performance of all drivers
- Decreases driver training times and improves productivity
- Eliminates the need to micro adjust the tilt controls when approaching a load
- Instructors can spend valuable time concentrating on other aspects of driver training

## Features:

- Universal Velcro mount
- Attaches in under 5 minutes
- Most economical price in the market
- Works on most lift trucks

**Angled mast**

**Level mast**
