

## Ultra-Oil & Debris Blocker

### Measurements:

- A. Inside diameter of outfall pipe:  
\_\_\_\_\_
- B. Distance from top of outfall pipe to the bottom of the grate:  
\_\_\_\_\_
- C. Distance from the bottom of the outfall pipe to the bottom of the basin:  
\_\_\_\_\_
- D. Distance from the right side of the outfall pipe to the right side of the basin:  
\_\_\_\_\_
- E. Distance from the left side of the outfall pipe to the left side of the basin:  
\_\_\_\_\_
- F. Distance from the wall of the basin that has the outfall pipe to the opposite side wall:  
\_\_\_\_\_
- G. Width of the basin wall:  
\_\_\_\_\_

### Other Questions:

- + What material is the basin made of?  
\_\_\_\_\_
- + Is the basin square, rectangular or round?  
\_\_\_\_\_
- + Is the outfall pipe flush with the basin wall or does it protrude into the basin? If so, how far?  
\_\_\_\_\_

### Other Questions:

- + Verify that the pipe is 90 degrees perpendicular to the basin wall. If not, what is the angle (approx.)?  
\_\_\_\_\_
- + What material is the outfall pipe?  
\_\_\_\_\_
- + What is the dimension of the grate?  
\_\_\_\_\_
- + Include any other schematics, information or pictures.  
\_\_\_\_\_  
\_\_\_\_\_
